

The Children's Painting Activity was a creative awareness activity in collaboration with TIP as a part of the 'Eye on Corruption – Empowering Women to Change' programme, held in the selected villages of Mithu Khaskheli and Village Obrayo Durs, Tando Allahyar.

The program consisted of a briefing regarding the corruption of basic children's right and awareness about eradication of child labour by HF's Social Mobilizer, Ms. Sumaira and Ar. Hina Zaidi. This event was the first of its kind held in these villages.

Ms. Heer, ParhoPakistan Teacher at Village Moak Sharif along with the local school teacher explained to the children how to paint and helped them through the process. The children showed great enthusiasm and seemed eager to draw away their creative expressions with art supplies provided by HF. The teachers encouraged them to paint with their imagination to their liking. The children were shown many pictures of Do-s & Don'ts with emphasis on literacy, hygiene and child labour.

It was encouraging to see the Government School teachers who are normally absent, being present during the activity and seemed eager in making the schools functional and education a number one priority at both the villages.

At the end of the assembly all participating children were given fruit juices and sweets.
